WHAT IS TELETHERAPY?

ESE Mental Health is constantly searching for and developing new processes to directly connect students and staff with licensed therapists. Our main goal is to help others live up to their full potential. With seasoned therapists who offer a holistic, healing approach to therapy. ESE Mental Health meets people where they are and helps them grow to who they want to be. We provide a setting full of compassion and understanding. We strive to make each session worthwhile and client centered. Stay at home or at school and see our therapists on your smart phone or laptop.
